

A Healthy Smile Can Help Keep Your Diabetes in Check.

Increased sugar levels can increase your risk of cavities, gum disease and tooth loss. If you are diabetic and already have periodontal disease, you may find it more difficult to control your sugar levels.

When you enroll in COVA Care's *Condition Care* disease management program, *Healthy Smile, Healthy You™* will cover that important extra cleaning for diabetics. Enrolling

in *Condition Care* is easy. Call 1-800-445-7922 or ask your Benefits Administrator

for more information. Then talk to your dentist about scheduling an extra cleaning – it's included in your plan!

For more information on an extra dental cleaning, call Delta Dental at 1-888-335-8296.
